Indications.
WASHINGTON, April 25.—For Ohio Valley and Tennessee: Slightly warmer, partly cloudy weather, local showers, variable winds in Tennessee. Westerly winds, becoming variable in Ohio Valley, lower barometer.

Black and fine somehow belong together. Not that everything black is fine or ought to be, but the finest of dressy suits for gentlemen are apt to be black.

We, as makers, need to set up the very highest standard in black. We do, and besides, tons of the tolerable sort. Not everyone wants the very slickest, finest, costliest suits. Not every one feels to pay the very highest standard prices. This necessitates the manufacture of the several sorts, for the several sorts of buyers. We have them all, from black corkscrew worsteds at \$10 and \$12 through the various qualities of intermediates, \$15, \$18, \$20, to the finest of made to measure suits, which from satined buying, skilled making, added to experience in catering to the many wants, gives assurance enough that this ought to be the majority outfitting establishment of Clark County, is it?

To be able to buy, make and sell the finest cloths in black, is reckoned one of the highest achievements in merchandising. To degrade one's trade with competition trash is easy. Where the highest notions of quality prevail we may also look for the more substantial and less luxurious merchandise as well.

G. A. R. suits with regulation buttons \$7, our own manufacture. Grades at less expected from the factory at an early day.

Winter-weight overcoats are going fast. Many left to be sold this side of May 15th or to be packed for the season. You'll have to be prompt to get the benefit of the reduction.

Not a ghost of a trick in selling neckwear. The trick is in the buying.

Would you think it possible for our combination of retailing houses through the West to sell one by one the entire production of one of the largest neckwear factories in the East. It's advantages of this kind that enable us to drop the goods at the consumer's door at prices equally as low as the ordinary dealer pays the jobber for his stock.

If prices and quantity to pick from are of any account to you as wearers of fine neckwear, there's but one buying place in the city. Where?

It's the weather changes that make spring overcoats almost a necessity. It's the price that more generally distributes our makes, and, too, goodness of material, trimmings, down to solid sewing and stay-in-place qualities of some of our suits in the long run.

Remember the "well" shirt and where you saw it. The long line of working shirt.

Remember our hat advantages, our umbrella stock. Rubber coats for men and boys.

Remember our prices on 4-ply linen collars and cuffs and laundered shirts to match.

Remember the rack of suspenders in the corner, from one to thirty nickles.

Remember us in hosiery and fine underwear, and above all, the immensity of our jean drawer stock.

The Coming Shooting Tournament.

Dr. L. E. Russell, President of the National Gun Association, attended a meeting of the Executive Committee held in Cincinnati last week. Everything that pertains to the shotgun wing-shooting tournament, which is to be held in this city from May 5 to 9, inclusive, seems to be progressing finely and the indications are that it will be the most successful of any tournament ever held. The prize will amount to \$2,000. Dr. Russell is in receipt of letters daily, asking for information, which shows that a lively interest has been awakened. A letter has been received from the captain of the Essex Club, of Essex, New Hampshire, stating that they will be present to compete for the \$250 badge offered as a prize. This club won the famous \$750 diamond badge in the clay pigeon tournament held at Chicago last May, in which all the best clubs in the country participated.

It was decided at the meeting of the Executive Committee to engage the Big Six Band to furnish music during the tournament. The stand privileges at the Fair Grounds are now for sale and good bids are being received. No ticket will be sold on the grounds, in accordance with a rule adopted by the Association.

A. S. Meserly and Taylor Kelly, of Greenville, Ohio, members of the Central Ohio Association, have challenged C. C. Lane, of Bellefontaine, and L. E. Duffy, of this city, to shoot a fifty bird contest for \$25 a side the contest to take place at Dayton, April 30. At this time Dayton will be included in this circuit, which will then include Dayton, Springfield, Kenton, Greenville, Bellefontaine and Urbana.

At the tournament which is to take place, every person employed about the grounds will be required to wear a uniform.

We are requested to say concerning the unfortunate accident to the two young ladies at No. 219 South Center street, in order that parties not connected with it may be relieved of annoyance, that Miss Mary Carr, who is now recovering from the severe shock, was first to fall, and Miss Judson, who was with her at the time, in attempting to rescue her was drawn into the vault, but was not materially injured. These young ladies were the only ones present at the time, and both have the sympathy of a host of friends in their misfortune.

Judy Aaron, of Columbus, is spending Sunday here.

The English-Russian Situation—General Grant to be Removed to St. Gregory in the Early Part of June.—The Cut Rates Resumed—A Millionaire Sentenced to Five Years' Hard Labor in the Penitentiary—An \$8,000 Hauling Risk Destroyed by Fire—The Half-Breed Rebellion—Funeral of Maxwell's Victim—The Great Chinese Bridge—The Cholera Scourge—Base Ball Yesterday—An Attempt Made to Burn the Palace Hotel of Cincinnati—A Fight with the Rebels—War Notes from London—The Car of Russia Turns His Attention to War Maps.

LONDON, April 25.—"Tonight the situation appears to be very serious. It looks as if Russia desires war, and as if England will be compelled to accept a challenge to fight. Even many of the superstitious folks point to omens, one of these omens is thusalluded to by a person who makes such things a study: 'The only time, last fall, that Mr. Gladstone made himself conspicuous, socially, was when he appeared in a theater box the night the news came about Gordon's death. The catastrophe on that occasion symbolized, Fate making over the end of British prestige in Africa.'

The London Spectator says: That it thinks that the very persistence with which the Russian papers are urging the seizure of Herat is evidence that they have been inspired for the purpose of preparing the Russian public mind for the event. The Spectator goes so far as to say that it believes that the seizure of Herat has already been ordered by the Czar and declares that British troops will be powerless to prevent its capture. The security of Herat against Russian occupation, the Spectator thinks, now depends entirely upon the courage of the Afghans who may defend the city against the Russian invasion. Nearly all of the London newspapers have reported arrangements for securing by special telegrams news from the scene of hostilities in the event of war between England and Russia. The Times and Standard are the only papers which have arranged to secure exclusive telegrams. Most of the other metropolitan papers have gone into a syndicate with the provincial press. The Romanist, conversing upon the situation, says that it looks as if the remainder of Europe would remain quiet during the struggle of war if war occurs between England and Russia.

A Millionaire Sentenced to Five Years.
PITTSBURGH, April 25.—Milton Weston, the Chicago millionaire capitalist, convicted of complicity in the Munnysville gas well riots in which Obadiah T. Haymaker lost his life, was today, granted a new trial, and sentenced to five years hard labor in the Western penitentiary. The riots occurred in September, 1883, and were caused by a dispute as to ownership of the famous Munnysville natural gas well. The case will be carried to the Supreme court.

The Cut Rates Resumed.
CHICAGO, April 25.—It was the Burlington road today that was to resume the cut freight rates to the northwest. It set the example by booking freight of all classes at ten cents to St. Paul, Minneapolis and Minnesota transfer points, a reduction on first-class of twenty cents since yesterday. As soon as the fact was made known, customer of each of the roads were also given benefit of the reduction, though ten-cent rates can not yet be said to be quoted openly.

LONDON, April 25.—The Cabinet sat three and a half hours. It is understood that the Afghan situation has not improved.

Hare Culture.
For five weeks past, about eight hundred of Springfield's school-going youth have been enjoying a rare opportunity for vocal and elocutionary training. The lessons which have been given daily, have been conducted by Prof. A. C. McKnight of Washington D. C., a teacher of almost national reputation, who was famous years ago as the "Boy Orator," before the bullet of the notorious Jesse James hopelessly terminated his brilliant career, leaving him a hopeless invalid for the remainder of his life. Necessarily impelled to new pursuits, he prepared himself as a teacher of oratory and vocal culture, and his success in these branches of educational art have received the recognition of hundreds of the leading journalists, statesmen and educational leaders of the nation. For the past five weeks, the exercises have been principally a series of gymnastic vocal drills, in which proper breathing, easy inflection, purity of tone, natural methods, distinct articulation, modulation and vocal expression have been given their due share of attention. Great benefit has already been derived from the lessons by the hundreds who have wisely availed themselves of the professors unexampled generosity, and marked improvement has been made by the pupils in overcoming faulty throat and nasal tones of voice, which leave largely given way to sure and natural tones, delightful to listen to, and in making which the voice is not only improved and strengthened, but the lungs judiciously exercised and invigorated.

Aside from the chance of learning how to use the voice with benefit to mind and body the exercises have been both interesting and delightful, while they have served to strengthen the entire system, and aided in throwing off daily any accumulations of dust or chill, particles inhaled in the atmosphere of the school room.

Mr. McKnight takes up some new branches of his work next week—gesture, grace of movement, locomotion, intensity of expression, and language of the eyes and hands, which teachers and parents will be deeply interested in seeing developed as these elements of education—so essential and so vital to one's success upon the stage of life—are of necessity given so little attention in the routine of ordinary school education. It would be impracticable to admit spectators generally to these drills, but parents and teachers of the members of this grand class are to be admitted heretofore by ticket on special days, which will afford them an opportunity of more fully realizing the value of the important culture and great benefit which hundreds of the young people of Springfield are deriving through the medium of these daily vocal and elocutionary drills.

An Officer to Resign.
At the next meeting of the city council on Tuesday evening Captain Billy Wood, station house keeper, will present his resignation as such officer, to take effect immediately after the appointment of his successor. If Billy stays until the city council secures as good a man for the place, he will hold the position for a long time. His course in the matter has been carefully considered, and it is at the earnest solicitation of his many friends, who know his ability and know that he is deserving of better things, that he gives up a position which he has filled with so much credit to himself and to the city. Billy has now had charge of the station house for almost three years, and without any reflection upon his predecessors, it is safe to say, and only just to him, that the station house has never been kept so well as during that time. It is one of the best kept prisons in the State, and to Mr. Wood the credit is due. During his administration there have been but few escapes, and at the same time the number of prisoners has been much larger than ever before. Billy did not go in as a "green" hand, however. During the administrations of E. G. Coffin and the first term of James Foley, as Sheriff, he served as deputy, and in that position, as well as in every other which he has filled nothing can be said against him. By his resignation, the constabulary force of this city loses an efficient member, and he leaves with the best wishes of all with whom he has been associated, as well as of those of his many friends. He has had several positions offered him, but has not yet definitely decided as to his future course.

The Texas Colony held another meeting last evening at No. 22 West Jefferson street, at which time six new members were taken in, making a total of fifty. A public meeting will be held Wednesday evening at the same place, and a regular meeting of the colony will be held Saturday, at which time arrangements will be made to send out a committee to prospect.

In Common Pleas Court, yesterday, Ezra Baushoff filed a petition for divorce from his wife, Francis Baushoff, nee Lutz. The grounds alleged is adultery with one, Tony Green. The parties have been married ten years and have two children.

About two o'clock this morning, officers Nicklas, Record and Riser arrested a well known tough named George McDermott and locked him up in jail. McDermott was wanted at Xenia for some petit crime and will be taken there tomorrow.

The man who is always finding fault with women's fashions is just as mad as he can be to think that the old fashioned "pull-back" under a new guise is coming to the front again. Oh, don't she wear a pull-back,
I know it would,
To see my girl in a pull-back.

SECRET SOCIETIES.

Knights of Pythias.
There are yet a great many Divisions of the Uniform Rank which lack of enterprise still use that twin relic of barbarism, the nickel helmet instead of the new regulation, easy fitting cork helmet that all new Divisions have.

The reception given by Division 44, last Monday evening, was such a thing as was possible, a greater success than any they have yet had. Fully one hundred and fifty of the Sir Knights and their friends were present.

Sir Knight Bailey kept his word with the boys and showed up handsomely, but he now declares that he will not do so again.

Sir Knight Ritter, of No. 6, drank a cup of coffee, but would not risk getting started on sandwiches because he says that he never "noise" when he has enough.

Lieut. Wagner had charge of the floor and that is all that is necessary to say, he and his assistants, Sir Knights Monahan, Bailey and Melking, kept things moving.

Sir Knight Wadsworth contributed neatly painted cards, announcing the dances.

Rainy days are bad for the new white cork helmets, and cold days are bad for Nickle ones. It has been thought that the Pythian Period coming in February should be changed on that account.

The Sir Knights of No. 44 will bear in mind that next Wednesday evening will be the regular night for drill, and it is a special request that every one be present.

Sir Knight W. R. Burnett is the recipient of a very beautiful solid gold watch chain and a V. P. charm, which embodies the emblems of both the Lodge and Uniform Rank. They were a gift from his estimable wife.

Monterfelle Lodge, No. 33, held a regular meeting last Friday night, and aside from one application being balloted on, but little except routine business was done.

Bro. Fred Miller is succeeding quite well with starting a section of the endowment rank, and a number of names have already been secured.

Mrs. Fellows does not play euchre very much because she cannot refrain from taking an advantage, but Mrs. Scholtes will not "pass" on that account.

Division 44 is under obligations to Sir Knight Virgil Coblentz for a complete toilet set of considerable value.

Lieut. Fellows' sure foot could not keep him still. When the music began to play, the Col. began to dance. He forgot that he had a sure foot until some one called his attention to it.

Mrs. Fellows has been somewhat alarmed about a burning sensation of her tongue, the Col. slyly suggests that she probably uses it too much.

Lieut. Joel C. Clark, of Division No. 6, was a welcome guest at the reception last Monday evening.

Secret League.

As usual, Hope Lodge, No. 6, had a large attendance and a very interesting time at last meeting.

The degree was conferred upon three applicants, and several propositions for membership received the same evening.

From present prospects, Hope Lodge will number one hundred in membership before being three months old.

Wednesday evening being unsuitable for the attendance of a number of the members, it was decided last meeting to change to Tuesday evening, and hereafter Hope Lodge will meet on Tuesday evening in the old Masonic Hall, Union Block, commencing next Tuesday, April 28. All members please take notice.

Spiritualism.
At Black's Opera House this (Sunday) evening, April 26th, an elegant chance will be furnished to witness the mysteries of a spiritualism, when Miss Ka Eddy, assisted by a number of mediums of experience, will give one of the séances that have made her famous throughout the country. The entertainment will consist of slate writing on the open stage, in broad gas-light, of mind-reading, of materialization, of table-moving and of a series of lightning performances, while the medium seems to be helplessly pinioned in a manner that will preclude the possibility of executing the tests. Miss Eddy has been subjected to the most crucial test conditions. The manifestations have been submitted to the cool, bright steel of scientific minds, who experienced no imagination and experienced nothing but facts. A small admission will be charged.

Mr. Albert Schivill, Jun., a prominent brewer, of Cincinnati, is in the city.

DAYTONS DEMORALIZED.

OUR CLUB WINS THE SERIES OF EXHIBITION GAMES.

A Fine Game Played Yesterday Afternoon at Association Park—Heavy Batting by the Springfield and Poor Fielding by the Visitors Tells the Tale—The Home Club to Play in Cleveland—Today the Louisville Next Thursday—Notes and News of Interest to Base Ball Admirers.

The third and last game of the series of exhibition games between the Springfield and Dayton clubs was played yesterday afternoon, at Association Park, and was won by the Springfield's by the score of 9 to 4. Only about three hundred people witnessed the contest, which was the best played on the grounds this season. The home club was in excellent condition, and the error column of the appended score will show that the boys are getting down to good work. On the other hand, it seemed to be Dayton's "off" day, every player making an error with the exception of Stein. It was only by sheer good luck that he did not make two, as twice during the game the ball bounded out of his hands but was caught again before touching the ground. Faatz did some magnificent work behind the bat, playing the entire game through without an error or a passed ball. Kelly pitched the best game of his life this season, being hit for only six base hits with a total of eight bases. Considering that this was only his third game this year, this is good work, and his admirers believe that he will do some very effective work during the season.

The first playing was done by Ardnor, who made several magnificent catches of fly balls, for which he had to run a considerable distance. In batting Faatz took the lead having a three bagger and a two base hit to his credit, and making two runs. Fisher played a good game at first, but made one wild throw to third base which let in the first run for the visitors. Huey also did some very fine batting, making two singles and a two bagger. Masran was hit for twelve base hits with a total of eighteen bases. This is a fine showing and is a good indication that Springfield has a heavy batting team.

For the visitors, Schwarz led the batting with two singles. The fielding was very poor, as will be seen by the error column. Up to the fourth inning perfect play on the part of the home club kept the visitors from seeing first base. The game commenced with the home club to bat. After two men were out Baker made a base hit, and never stopped running until he had crossed the home plate, coming in on a bad error of Harper in right field. In the second inning Huey led off with a base hit, went to second on a muffed fly by Wilcox, and scored on a base hit by Fisher, which advanced Shoupe to third. Fisher stole second and both he and Shoupe scored on a base hit by Kelly. Ardnor and Peckinpaugh went out at first, ending the inning and leaving Kelly on third. In the third inning another run was scored by Baker, on a muffed fly by Williams, and a base hit by Ardnor. In the fifth inning after two men were out Faatz scored on a two base hit by himself, and another single by Ardnor. In the sixth the home club were retired in one, two, three order. In the seventh Peckinpaugh led off with a three bagger and after two men had been retired, scored on a single by Huey. The last two runs were made in the ninth, on a three bagger by Faatz, a two bagger by Huey, and an error by Crogan.

The visitors scored their first run in the fourth inning. Crogan led off with a two bagger, and scored on a wild throw by Fisher to third. They scored again in the fifth inning on a single by Hughes, and a muffed thrown ball by Ardnor. In the sixth inning Crogan got to first on a fumble by Baker, stole second, and scored on a single by Schwarz. The later scored on a two bagger by Klusman, who was put out at third base. This ended the run getting, only one man of the visitors being able to reach first base in the remaining three innings. The following is the full score:
